

INSTRUMENT DESIGN & MFG. CO.

Comfort Grip Trocars™

Introducing the first real change in a Trocar Grip. The New Comfort Grip Trocar™ by Instrument Design & Mfg. Co. is the first truly ergonomic grip on the market. The light weight plastic grip sits comfortably in the palm of your hand. The entire palm of the hand is used to grip the Trocar unlike standard grips where the fingers must be gripped tightly to securely hold the Trocar. The shape of the Comfort Grip is engineered so the straight line force of the shaft centers on the strongest part of the hand. These features greatly reduce hand fatigue. Trocars features 3 pairs of holes and standard 4 sided double slotted Trocar point. Our Comfort Grip Trocars are available with a slip hub connection or our new Side Button Quick Connect fitting.

[Click here for a video on the Comfort Grip Trocar™](#)

Available In These Popular Sizes:

TROCG312-16	5/16" x 16"
TROCG312-18	5/16" x 18"
